OFFICE OF THE DEAN (RESEARCH)

NOTE

To,

Dear Dr. _____

As you may be aware, in the PG Dissertation guidelines at JIPMER released in 2020 each Departmental PGRMC will require an observer nominated by the Dean (Research) Office. In this regard, you are nominated as the observer to the PGRMC consisting of the following department(s) and I would be happy if you accept this responsibility and contribute towards improving the standards of research in JIPMER.

The chairman of the PGRMC will be in touch with you regarding the date, time and venue of the meetings. The terms of reference are given below:

1. The nomination is for one year only i.e. August 2026 to July 2027.

2. The observer is required to be present for the entire duration of the meeting (which may be held on more than one day) and submit a detailed report of the proceedings to the Dean (Research) Office in the format attached in a sealed envelope marked 'Confidential'.

3. The observer is encouraged to interact and provide suggestions/advice during the proceedings keeping in mind that he/she may not necessarily be a subject expert of the concerned discipline. A summary of the points raised by the observer may please be included in the report.

4. The observer is specifically required to comment on the **feasibility of the proposed study**, particularly with regard to its **study design, methodology, and sample size**. Accordingly, all Heads of Departments are requested to ensure that the **study protocols to be presented are shared with the observer at least one week prior to the meeting**, to allow adequate time for review and feedback.

5. If the observer finds a serious concern that must be revealed, he/she may do so to the chairman and/or the member-secretary of the PGRMC, after the meeting and the same must be included in the report submitted to the Dean (R).

6. The observer is also required to follow up on the proposals from the previous PGRMC meeting and collect information from the head of the Department regarding progress including date of application for and approval by the IEC.
