Date: 27-07-2016

CIRCULAR

It is informed that the security policy is being implemented in JIPMER firewall at O/o H.I.S. unit for the effective and secured usage of NKN bandwidth. Its found that there are lot of unauthorized activities and downloads are happening in the network which leads to notice copyright infringement against the institute. Followed by that, the secured policy will be executed to streamline the network threads by implementing the website content restriction, website filter for the following categories like the unrated, unsecured, Adult mature content, potentially liable botnet and centralized antivirus installation via CCM-AV Server.

All the Endusers are requested to co-operate and notify us at 6516, 6518, 7219 if your computer is not installed with Symantec End,Point Protection Antivirus and also if you found genuine website got blocked.
