Accessing JIPMER Digital Library

JIPMER, Puducherry has subscribed to one of the largest e-resource contents for digital medical library in India. Please find below the instructions to utilize it optimally,

There are two ways to access the JIPMER Digital Library

1. Type the website/URL links of the subscribed content, details of which are provided below from anywhere in the JIPMER Institute/Hospital as well from the Hostel campuses of both JIPMER, Puducherry and Karaikal. You will be able to access the content directly. Some sites may, in addition, will require you to register with your official details to permit downloading a PDF copy for yourself. For example, Clinical Key from Elsevier will permit downloading a PDF copy of text book or journals only after registration. Books can be downloaded as individual chapters only. Kindly go through the JIPMER website to know the e-library content for JIPMER. This access is provided through Institute IP address and has products in both perpetual and subscription model. Institute/hospital IP based access is available to anyone with access to official internet connection through JIPMER.
The content below is not comprehensive, but has included most of the Institute subscriptions. The list will be updated periodically.
2. If you are a faculty or student enrolled in any course in JIPMER, register yourself with JIPMER official e-mail ID (example@jipmer.edu.in) through the Library Link in JIPMER website. This will enable you to have access to all the digital library contents worldwide using your username, password credentials. Kindly note that though the contents are available and most of it can be downloaded, a few e-book downloads for saving a permanent PDF copy is available only from Institute IP address and are not permitted from off-site. For example, e-book chapters from Elsevier Clinical Key can be downloaded as PDF copy for permanent record only from Institute and not through RemoteXs, though the chapter can be accessed and read from the RemoteXs page from anywhere. The website for JIPMER RemoteXs is www.elibraryjipmer.remotexs.in

All the content will be catalogued and arranged by Remote Xs webpage of JIPMER and hence further explanation will not be given.

Best way to use all the content will be to explore it by yourselves. As we use it more, you are likely to face specific doubts which can be clarified during onsite training sessions arranged by the Library. Otherwise, these training sessions will become advertisement time for the Publishing houses as the company representatives will not face questions from the audience.

Accessing the e-resources through Institute IP address

Find out the most useful resource for your discipline and create a bookmark in your browser link.

Though disciplines are categorized, it is for convenience and can be used across several specialties. For example, Stat Dx for Radiology is a easy user tool for diagnostic guidelines for all specialties. To give a reference, a Neurosurgeon or a Pathologist can use Stat Dx to read a CT or MRI and discuss their doubts with a specialist in Radiology. Similarly Expert Path can be used by a Hematologist, Oncologist or Nephrologist to discuss the interpretation of biopsies with a specialist in Pathology. Expert Path also has materials in Biochemistry, Microbiology and other Laboratory sciences for reference.

Mobile based Apps are available for download for onsite solutions

Onsite Diagnostic Solutions- Subscription – Reference from Multiple e-books
