

JIPMER, PUDUCHERRY-6**No.Estt. IV.12(20)/2010****Note Submitted:**

Sub: Amendment to /framing of RRs for the posts in the Laboratory Cadre -Reg.

This relates to framing and amendment of Recruitment Rules for various posts in Laboratory Cadre of JIPMER. The cadre structure of Laboratory posts in this Institute alongwith number of posts, their Pay Structure, Grade Pay, Mode of Recruitment, etc. is detailed at Annexure - A. At present this Institute has 34 posts of Lab Assistant. However, as the present feeder grade of Lab Assistant is featuring in MTS (i.e. Lab Attendants) and as the structuring of promotion avenues of MTS is being examined into the revision of RRs for Lab Assistant is deferred for time being.

In this regard, the following brief in r/o various lab cadres may kindly be perused:

1. Initially there were 89 posts of Lab Technician and 2 post of Lab Technician (Micro-Vascular), 1 post each of Respiratory Lab Technician (PIT), Respiratory Allergy Lab Technician, Endoscopy Technician and BCG Technician. In addition 23 posts of Lab Technician have been created recently on 15.10.2013 copy at **Annexure-B**. The Coordination Committee constituted by the Ministry of Health & Family Welfare have also suggested to redesignate the various Lab Technician posts into a single posts i.e. Lab Technician. Considering that all this posts are having similar pay structure and responsibilities as also education qualification requirement, it is proposed to designate all these posts as Lab Technician and frame Recruitment Rule.
2. Initially there were 20 posts of Technical Assistant before setting up of Super Specialty Block (SSB). Subsequently 29 posts were sanctioned for 13 departments of SSB (refer Annexure - C). Further 11 more posts have been created by the Ministry and orders issued by JIPMER on 15.10.2013. Out of these, 8 posts of Technical Assistant with reference to the departments of Anesthesiology, Urology, Cardiology (1 post each), Neurology (2 posts) and Nuclear Medicine (3 posts) were delinked due to their specialized nature of work (refer Annexure - D) and RRs framed separately. Further 9 posts of Senior Technical Assistant were existing previously and their nature of duties was also similar to that of Technical Assistant and hence it was decided to include these post also for the purpose of common RRs as Technical Assistant. Therefore, considering the common nature of duties and responsibilities it is proposed to frame common RRs for the 61 posts of Technical Assistant which includes 9 posts of Senior Technical Assistant.
3. Before formation of SSB there were 5 posts of Technical Supervisor. Subsequent to setting up of SSB 9 more posts of Technical Supervisor were sanctioned by the Govt. However, considering the different nature of duties and responsibilities, two posts of Technical Supervisor in Cardiology dept and one each in Dept. of Urology and Nuclear Medicine were delinked and RRs framed separately (refer Annexure - D). Recently the Govt. has sanctioned 3 more posts of Technical Supervisor for which orders were issued on 15.10.2013 (**Annexure - B**). Thus it is proposed to frame common RRs for all these 13 posts of Technical Supervisor
